

Welcome

- Welcome to the IVAO Algerian Division's wiki!

Welcome to the IVAO Algerian Division's wiki!

Welcome to IVAO's New Wiki Website!

This new version is more intuitive and user-friendly. It will allow you to consult all IVAO's documentation (i.e. rules and regulations, policies, departmental procedures, etc.) all in one place.

Most importantly, and thanks to tags, search for information has become easier than ever. Just type your keywords in the search bar above and you will get the most relevant results. It will also allow you to bookmark, print and one-click share on most online and social media websites.

As we continue to enrich it with new content, this new wiki constitutes a significant advance in IVAO's knowledge management. We hope you enjoy it. We continue to provide support on our forum: <http://forum.ivao.aero/>

IVAO will always remain an organisation that is fully committed to promising leading-edge software to its Community, and working at full capacity to offer the most sophisticated, realistic and convivial flight and ATC simulation experience.
